**Frameworks:** React JS.

**Developer Tools:** Visual Studio, Pycharm, Anaconda.

**Soft Skills:** Problem-Solving, Adaptability, Critical Thinking, Creativity.

**Interpersonal Skills:** Communication, Team Collaboration, Time Management, Leadership.

## Projects and Internships

---

**Web Developer Intern at Innovate Intern**

May 2024 – July 2024

- Developed front-end solutions using HTML, CSS, and JavaScript, and worked on QR code management system in a team. This project enhanced technical skills and deepened the understanding of web development best practices.

**Live Weather Forecast (Self Project)**

February 2024 - March 2024

- Designed and developed a responsive live weather forecast website application using ReactJS that provides real-time weather data using APIs for a city with city name auto suggestions (Geo DB cities API and Open Weather API). The project aimed to enhance customer experience with a user-friendly interface using a robust tech stack.

**Realtime Chat Application (Self Project)**

November 2023 - December 2023

- Developed a web based real-time chat application to provide users with an interactive and seamless chatting experience. This project boosted technical proficiency and broadened the knowledge of best practices in web development.

**Web Developer Intern at CodeClause Private Limited**

June 2023 – July 2023

- Developed a music player project with a responsive user interface using HTML, CSS enabling users to access the songs by JavaScript. This project improved technical abilities and enriched the comprehension of web development standards.

## Position of Responsibility

---

- Class Representative:** Represented classmates, facilitating effective communication channels between students and faculty.
- College Sports Coordinator:** Managed college chess tournament logistics, coordinating setups and experts, showcasing strong leadership.

## Certificates

---

- Python (basic) certificate from Hacker Rank.
- Oracle cloud infrastructure certificate of recognition (valid till 23-08-2025).
- Frontend Developer (React) certificate from Hacker Rank.
- Web Developer intern at Innovate Intern.
- Web Developer intern at Code Clause and Oasis Infobyte.

## Extra-Curricular activities

---

- Captained winning kabaddi team in college tournament.
- Participated in Hackathons and Quiz competitions.
